

NOTICE 04/20

Date: 21 February 2020

Subject: Test Environment binary API for Market Data

From 2 of March, in the Test Environment for Financial Derivatives (M3), it will be possible to connect to the **binary API for market data**. This is a “multicast” broadcast, and the complementary “replay” and “recovery” services will also be available.

The market members that wish to access the “multicast” broadcast and complementary services, should send a request to BME Market Data infomarketdata@grupobme.es

The simulation market timetable has been adjusted and the new timetable will remain as follows:

Trading system by Product	New Closing Time
Order book for IBEX Futures	16:31
Order book for Rest of products	16:00
Block Trades	16:26
RFQ	16:26
