

**NOTICE 10/20**

**Date: 22 May de 2020**

**Subject: New S/MART version. Mandatory update to the terminal version. Version 10.11.04**

---

In relation to the Notice regarding the improvement and renewal of the S/MART system, and as a step prior to the implementation of the new binary messaging protocol for public information messages on market data, (expected **13 July in production**), it is necessary to install a new terminal version.

The update is mandatory for all the Market Members regardless of whether or not they adapt to the new binary messaging.

From 29 June any version before 10.11.04 will be declared as incompatible.

MEFFSERVER terminals connected to Financial Derivatives segment must be updated to version 10.11.04. For those that are installed on BME-owned computers, the update will be automatic.

The new version of terminals and Meffserver to be installed is already available for download in the following link for both the UAT and production environment:  
<http://software.bolsasymercados.es/meff/>

User: meff  
Password: software23

The updated documentation with the changes of the new version is available in the MEFF website: <https://www.meff.es/ing/Technology/Technical-documentation>

In this same page of the website you will also be able to find the latest version of the binary messaging protocol B1.2 and its corresponding codification tables.
