

# Currency Futures Contracts

## Rolling® FX

-  The futures contracts in the xRolling® FX\* offer trading in currencies and hedging exchange risk with the safety and transparency of a regulated market.
-  Distributed by MEFF members and settled and cleared in BME Clearing, the BME Central Counterparty.
-  Negotiable from Monday to Friday from 00:00 to 23:00 CET\*\*.
-  Available on 17 currency pairs.
-  No expiration. Automatic daily rollover allows the investor to keep the position open sine-die and/or close it whenever he/she wants without penalties.
-  Settlement and guarantees in euros.

\*This contract is subject to the Resolution of June 27, 2019, of the National Securities Market Commission, which establishes measures affecting its marketing, distribution or sale to retail customers.

\*\* Market closing time will coincide with 17:00 New York time (EST), which will usually coincide with 23:00 CET, except when there is a time lag due to the different time of daylight saving time between Europe and the USA. During this time offset period, the market closing time will be 22:00 CET.
